

# @Ease SmartChlor Chemical Schedule

**Start-Up Chemicals** - Add these chemicals when filling or refilling the spa.

Product Name	Amount to add	Purpose
Chlorine Granular	Add 2 ounces.	Disinfects and sanitizes spa water.
Shock / Shock Out / Super Oxidizer/Renew	Add 2 ounces.	Eliminates odors. Oxidizes dead organics and helps activate chemicals.
Stain & Scale / Metal Gone/Defender	Add 2 ounces.	Prevents metal and mineral buildup on the spa and equipment.
Calcium Hardness Increaser	Add 8 ounces.	Helps protect equipment from corrosion by raising the level of water hardness.
Alkalinity Increaser / PH up	Add 1 or 2 ounces if PH and alkalinity tests are low.	Raises alkalinity level to help protect equipment from corrosion.

1. Remove wrap from Mineral cartridge, set cartridge to 6 and insert into feeder
2. Remove wrap from SmartChlor cartridge, set cartridge to 3 and insert into feeder

**Weekly** - Check water chemistry with @Ease Test Strips.

1. Check PH/Alkalinity and adjust if necessary.
2. Add 2 oz. Defender
3. Add 2 oz. Shock if water is looks cloudy.

**Monthly** - Check water chemistry with @Ease Test Strips.

1. Replace @Ease SmartChlor Cartridge
2. Add 2 oz. Shock

**Every 4 Months**

1. Drain and refill spa.
2. Replace @Ease SmartChlor Cartridge and Mineral Cartridge

**Important: Never use hot tub if the chlorine level is low!!**
